Version Found: 3.0

Defect Description: When pressing the enter button on the keypad, the UI returns to the element's home page rather than conducting the intended action (add or search).

This happens in the following sections:
Admin role - user, protection element
Super Admin role - user

Reproduced: Always

Steps to Reproduce:
Go to the element home page.
Select the link for create new.
Enter in the first field (e.g. login name).
Press "enter" on the keypad.
